

365 Managed Service

Unlock the Full Potential of the Microsoft Stack

The 365 Managed Service is for businesses that rely on Microsoft 365 to be productive and secure.

Leverage the full benefits of **zero trust security**, **passwordless authentication**, **zero-touch provisioning**, **automated patching**, **secure AI**, and **seamless support** for your end users.

Mobile Mentor manages all your devices, applications and security, while supporting your employees to be truly mobile and productive wherever they work.

Key Benefits:

Invisible Security

No VPN, no domain, no servers, and no passwords. Go modern with cloud-native identity, cloud-managed devices, and passwordless authentication.

Empowered Employees

Day 1 onboarding with automated deployment, silent software updates and 24x7 support.

Lower Costs

Extract maximum value from Microsoft 365 licensing and eliminate overlapping technology.

“Mobile Mentor brought a more sophisticated level of services at a lower price. They are far superior from a performance standpoint than our previous partner and were able to deliver 25-30% savings.”

David Estrin, COO
Big Brothers Big Sisters

Microsoft

Partner of the Year 2021

Finalist 2022-2025
